

Sub-Processors Policy for MicahTek, Inc.

MicahTek uses certain sub-processors to assist in providing MicahTek services. A sub-processor is a third party data processor engaged by MicahTek who agrees to receive personal data from MicahTek intended for conducting services to be performed on behalf of MicahTek clients; as communicated by MicahTek; and in accordance with the terms of a written contract between MicahTek and the sub-processor. Prior to working with sub-processors, MicahTek conducts an audit of the security and privacy policies to ensure the sub-processors provide a level of security and privacy applicable to their access to data. MicahTek's sub-processors include:

Sub-Processor Name	Sub-Processor Activity	Location
